Dear Ms. Henney:

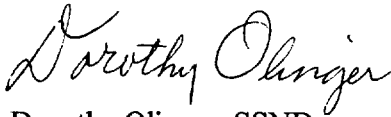

Labeling of genetically-engineered food is a protection of our basic right to know what food we are putting into our bodies. To deny us that right in order to favor those producing genetically-altered products is wrong.

I support the lawsuit of Alliance for Bio-Integrity v. Shalala, Docket # 98-1300 (CKK). What will you do to bring justice to this matter? I am not at all satisfied that such food is safe. And, I prefer, and insist I have the right, to organically produced food.

Please act to protect our rights.

Thank you.

Sincerely,

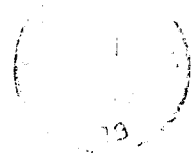

Dorothy Olinger, SSND
